OUR CLINIC

Euromedica General Clinic of Rhodes started its operation back in November 2006, in brand new, high tech and fully equipped facilities covering an area of 12.500 sq.m, in the Municipal Community of Koskinou in Rhodes. Extending to 3 floors, it accommodates 107 bed facilities with a variety of two and three bed rooms, deluxe rooms and suites. These facilities combined with state-of-the-art technology and on-site support services enable our consultants to undertake a wide range of procedures, from routine investigations to complex surgery, and therefore introduce new standards in the field of Medicine aiming for the continuous upgrade of Healthcare services.

OUR MEDICAL AND NURSING STAFF

The state of the art residence facilities and most importantly our experienced, dedicated and highly trained medical and nursing staff ensure that our patients receive the best possible treatment, making their stay as pleasant and comfortable as possible.

Our model organization, along with the quality services offered to our patients, plus the fact that we cooperate with one hundred and twenty distinguished and well trained physicians, makes us undoubtedly the leading and the most reliable healthcare provider in the region.

INTERNATIONAL PATIENTS IN RHODES

Since opening in 2006 to date, the Clinic has been assisting thousands of visitors to the island of Rhodes who needed medical help and support during their vacation. With its specialized departments, well equipped facilities, ambulance coverage and multilingual staff as well as a network of specialized doctors in the hotels, the hospital has become a permanent and categorical feature in the island's touristic infrastructure.

OUR DEPARTMENTS

We provide a wide range of general and specialised medical and surgical services. The main departments are highly specialized in procedures and treatments, in the following areas: diagnostics and radiology, cardiology, internal medicine, orthopaedic department, maternity department, ophthalmology, urology and endoscopy unit.

On site we have an operating suite with 8 theatres, 8 beds Intensive Care Unit (ICU), as well as a one-day care Centre within the Emergency services.

AESTHETIC DEPARTMENT

Greek language and the meaning of Aesthetic from the Greek word aisthetikos, to perceive as beautiful. Cosmetic from the Greek word kosmetikos, to adorn Plastic from the Greek word plastikos, to reshape.

The Aesthetics Department has a team of experienced doctors with specialized skills and knowledge that perform a range of surgical and non-surgical interventions;

- Abdominal plasty
- Blepharoplasty
- Fillers and Botulinum toxin
- Lifting Procedures
- Gynecomastia
- Breast augmentation & correction
- Rhinoplastic Procedures

HEMODIALYSIS DEPARTMENT

The newly established hemodialysis department in Euromedica Rhodes provides modern kidney dialysis treatment facilities and a supportive team which serves local patients needing these specialized treatments, as well as hemodialysis dependent travellers, allowing them to feel secure when coming to Rhodes on vacation.

The modern Artis Physio system GAMBRO equipment is able to precisely offer specific treatments because every patient is different. Our nephrologists in the Hemodialysis Department monitor the treatment carefully together with a specialized team of nurses.

CHECK-UPS

Our specialised doctors will conduct a range of check-up packages based around the patient's conditions, needs and age combined with biological tests as well as extensive physical checks. Prevention is important and therefore we have set up specific packages classified by the age and lifestyle of our patients. We encourage visitors to Rhodes to sign up for the suitable check-up package with our multilingual and specialised staff to add value to their vacation time.

care@euromedica-rhodes.gr

GERIATRIC SERVICES

Euromedica's vision is a future orientated strategy development based on changing markets and adding services to attract elderly tourists to visit the island feeling great and well cared for.

We offer a range of programs which include physical activity exercises, a range of water therapies in the sea (a natural resource) as well as cooperating with local hotel facilities and following a well-known healthy Mediterranean diet with a focus on local products. All of these focus on enhancing mobility, flexibility, strength and balance resulting in vitality and well-being.

We focus on supporting our elderly visitors to Rhodes with specialised programs, care and assistance, allowing them to travel without age limitations. Before any program will be recommended, a general check-up will be completed by our geriatric specialist to define the needs and capacity of the patient, and to choose the right program to benefit them.

PHYSICAL REHABILITATION CENTRE

Our outpatient clinical teams provide preventative and rehabilitative care that maximizes functionality and promotes well-being, increases mobility and enhances life quality. Individualized treatment plans are developed to help achieve each patient's specific goals. We also provide physical therapy and athletic training services.

Our rehabilitation centre offers specialized services focusing on areas as diverse as Aquatic Therapy (in cooperation with hotels), Concussion Management, Occupational Therapy, Lower Back Rehabilitation, Orthopaedic Rehabilitation and Women's Health in addition to Physical Therapy.
